

Pacolet Mills Elementary School Classes

Album 12

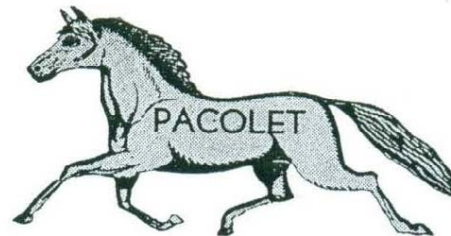

Photo thought to be taken about 1929 on the steps of the main building. There is only one certain identification in this picture and that is my Mom, Marie Fowler Teaster. There are two others that I believe are correct but am not 100% sure.

Nothing is known about the students in this picture. Since the photo is on the school steps, it has to be after 1921 when the school was built. If you recognize anyone in this picture, please let us know.

Also, nothing is known about the students in this picture. As with the photo on page 3, it was taken on the school steps, and has to be after 1921. If you recognize anyone in this picture, please let us know.

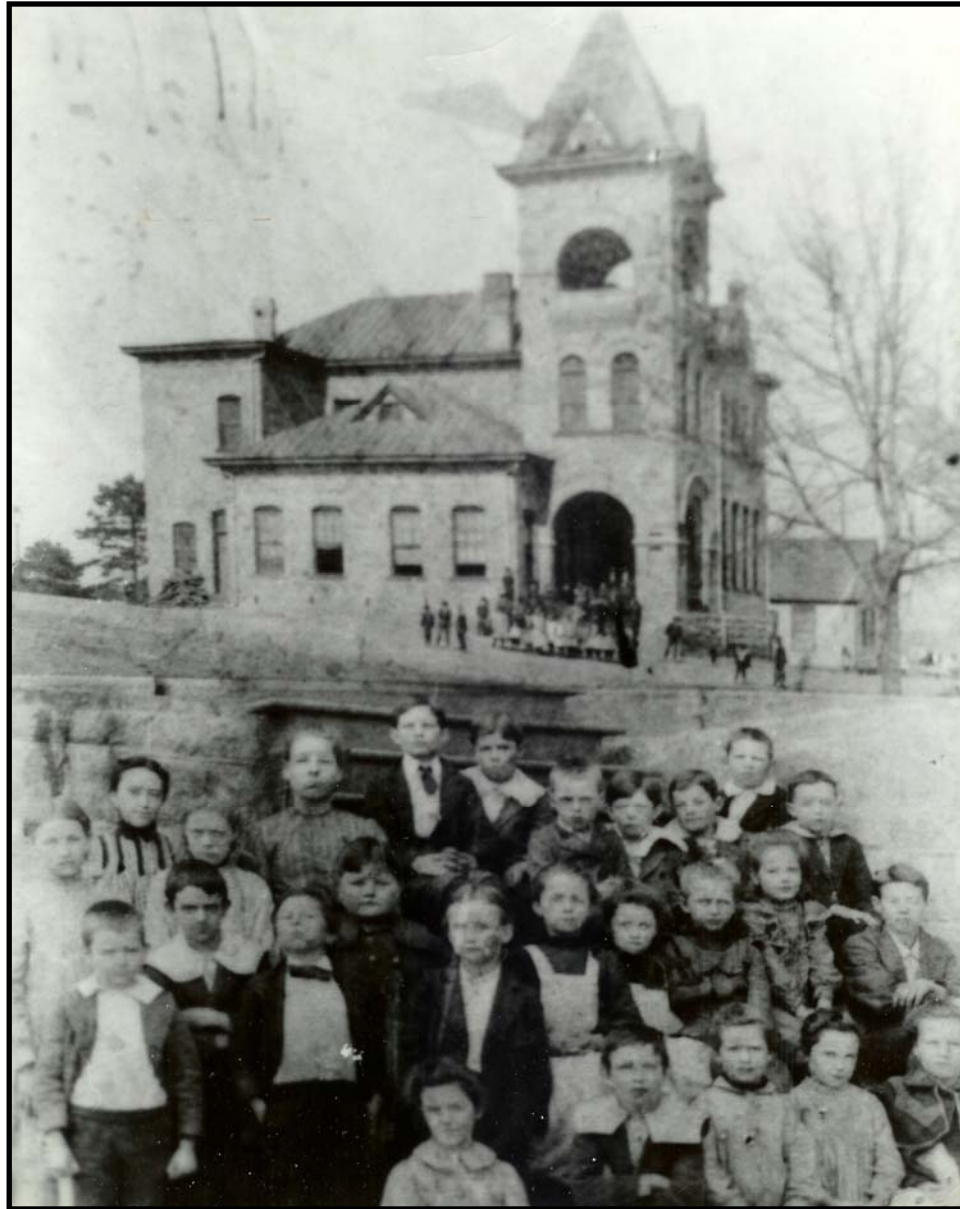

Photo of the First Grade in 1929 at the Pacolet Mills Elementary School. The photo was furnished by Myra Jennings Watson. Her Mom, Elizabeth Whittings Jennings, is in the photo (second from the left in the front row). Unlike the previous classes, this picture was made outside the [Annex](#) that housed the First Grade classes. If you recognize anyone in this picture, please let us know

Play being put on by the 7th graders about 1951. All of the actors in this photo but one have been identified. Please let us know if you can identify the remaining girl. Another photo of the play is on the following page.

Another scene in the same play. Please let us know if you can identify the lady on the left.

This group of students is in front of the first school that was replaced in 1921. It was in basically the same location as the school shown in [Album 11](#). None of these students have been identified.
